

 University Health™	Policy #: Rad Proc 14. 2.7
SUBJECT: MR Safety Education/Training	Effective: 10/1/2013 Revised: 2/2015: 2/2017
APPROVED BY Eduardo Gonzalez-Toledo, MD PhD	Page 1

PURPOSE: All individuals working within at least Zone III of the MR environment should be documented as having successfully reviewing the prerecorded MR safety presentation approved by the MR medical director. Review should be repeated at least annually and appropriate documentation should be provided to confirm these ongoing education efforts.

POLICY:

1. MR personnel will review the prerecorded MR safety presentation approved by the MR Medical Director annually.
2. MR personnel will sign a document certifying that they have reviewed the prerecorded MR Safety presentation. This document will be placed in the employee's personnel file.
3. Students rotating through the MR department as part of their clinical education will review the prerecorded MR safety presentation approved by the MR Medical Director.
4. Students will sign a document certifying that they have reviewed the prerecorded MR Safety presentation. This document will be submitted to the Radiology Education Coordinator.
5. Non-MR Personnel will review a prerecorded MR safety presentation approved by the MR Medical Director as part of Annual Campus Education.
