

	Policy #: 16.17
SUBJECT: Screening Mammography Orders	Effective: Dec 2006 Reviewed: 02/19
APPROVED BY: <b>Director of Radiology</b>	Page 1 of 1

## Screening Mammography Orders

Purpose: To define the standing order for a screening exam.

Policy: Screening mammograms will be performed on asymptomatic patients with the following views:

- A. One cranial caudal view of each breast.
- B. One medio-lateral view of each breast.

Care should be taken to ensure that the entire breast is visualized while keeping exposure to the patient at a minimum.
