SUBJECT: Logiq Work Station Policy	Effective: 3/2006 Updated: 2/21/19
APPROVED BY: : Director of Radiology	Page 1 of 1

LOGIQ WORK STATION POLICY

Purpose:

To allow sonographers and/or physicians to display and review all images in a study before sending to the PAC's system for permanent storage.

Policy:

Images are sent from the GE/Logiq ultrasound machines for review before sending to the PAC's. This allows physicians to review patient's images that are off site before letting the patient leave the premise. This also allows the sonographer to make changes before images become a permanent record. Such as: adjusting Doppler, grey scale, power, deleting images that are no longer useful and restoring 3D and 4D images.
