## QUALITY CONTROL CHECKLIST

**Purpose:** To establish guidelines to be used while performing quality control on ultrasound examinations.

**Policy:** It is the responsibility of the technologist verifying examinations on PACS to critique all images. All quality control issues will be documented.

1. Correct patient
2. Correct exam performed
3. Exam done matches exam requested
4. Area of interest completely visible
5. Routine images obtained
6. Images free from artifact
7. Adequate clinical history on requisition
